

Sharpes Hi-Lay Pellets

SHARPES HI-LAY PELLETS ARE MADE WITH 100% NZ GRAINS. This is a balanced and complete feed for all strains of laying hens including free-range, to enable optimum growth, health, and egg production.

KEY BENEFITS:

- Hi-Lay Pellets are made with 100% NZ grains
- A balanced and complete feed.

Contains meat and bone meal for an excellent source of protein, calcium and phosphorus.

BAG SIZES: 5kg, 10kg, 20kg, 1/2 tonne and 1 tonne bags.

FEED RECOMMENDATION: It is recommended that you introduce Sharpes Hi-Lay pellets a week prior to the beginning of lay, this is typically 16-17 weeks old. Then allow ad-lib feeding from point of lay. Hens would normally be expected to eat approximately 110-130gm per hen per day (which is approximately a good handful of pellets.)

INGREDIENTS SELECTED FROM: Locally sourced grains and cereals, meat and bone meal, plant proteins, limestone, macro and trace minerals & vitamins.

TOP TIP: Always ensure that hens have access to fresh, clean water. Providing hens ad-lib access to Sharpes shell grit can assist shell quality.

TYPICAL ANALYSIS (approximate on an as fed basis):

Crude Protein	17%
Calcium	3.8%

STORAGE: To maintain quality please store product in a cool, dry and vermin free environment. Best fed within six months of production.

WARNING Do not feed to Sheep, Cattle, Deer, Goats, Buffaloes, or other ruminant animals. This product contains or may contain Ruminant Protein.

Please note: Do not feed to any other animal species than those listed on the label and only feed as directed.
